

SONOR

1875-2000

 **SONOR**<sup>®</sup>

After the end of World War II the East German Government expropriated the Link Family and Sonor became a state owned enterprise. But already in 1946 a new company was established by the son of the founder, Otto Link, and his son Horst. This time the location was Aue in Westphalia/West Germany. Today Sonor has evolved into a modern enterprise with its focus on the international markets. Though latest technology has found its entry into Sonor production methods, the secret of the Sonor sound remains. It lies in the meticulous attention to even the smallest detail and the commitment of its founder to always maintain the highest possible level of quality.
